

KittyLit 2025 Project Roadmap – Gantt Chart

This document outlines the quarterly development roadmap of the KittyLit project for 2025. The roadmap ensures responsible AI implementation with structured milestones across each quarter, focusing on data ethics, governance, and continuous system improvement.

31 Quarterly Breakdown

- Q1 2025: Dataset Collection and Preparation
- Q2 2025: Core Recommendation Engine Development
- Q3 2025: Governance Layer (Bias, PII Filtering, Explainability)
- Q4 2025: UI Enhancements and Performance Tuning

✓ Governance Alignment

All phases follow Responsible AI governance principles ensuring compliance with AI ethics, privacy protection, and transparent data usage. Each quarter is validated against explainability logs and audit checkpoints for continuous monitoring.
